

WAD Site Requirements

General:

Guitar tab and sheet music creation site.

Pages:

Page 1: Tab creation. Will be able to directly place notes on a sheet music staff. Ability to export created tabs as pdf and to play them to see how they sound.

Page 2: Sheet music creation: Will be able to place note, rests, change time signatures and clefs directly on a sheet music staff. Ability to export created music sheets as pdf and play them to see how they sound.

Page 3: Arrangements: Ability to write lyrics and place guitar chords over specific spots in the lyrics. Ability to set up a custom strumming/picking pattern for each chord. Ability to export created tracks as pdf.

Page 4: Fretboard editor: Ability to create custom chords to then place in the arrangements page. Site will save created chords through cookies or through user account.

Page 5: How-to: Various tutorial chapters on how to use each page of the site.

Page 6: Contact: Contact page to e-mail me directly with bug reports and feature requests for the site.
